FYI.

I've created and am using an electronic project file for the Waimanalo SLF project on our WMD G: drive.
Link below.
(It's in the same location of my other projects.)

There are still lots of things in my e-mail or elsewhere that I'll be adding as I clean up, but this is where it'll all go.

Regarding e-mails, I make PDFs of any key e-mail communications and include them in the appropriate "Incoming" or "Outgoing" folders. My file naming convention has the first part of file names being "2011-MM-DD" to facilitate chronological sorting.

Feel free to access and use as needed:
